INDEPENDENT.

FIGURES.—Every few weeks the
daily and other papers make a great
parade or ado about certain distin-
guished prize fighters, who in carry-
ing out their brutal, bull dog instincts,
take much pride in challenging the
public attention to their disreputable
profession. As notoriety is what these
fellows seek we suggest that when a
pair of them are suffering for a pum-
meling match, that they be put into
an enclosure, where nobody can see
them—that the public pay no atten-
tion to them—and that then and there
let them pelt each other in solitude,
to their hearts content. If this course
was adopted the abominable, heathen-
ish practice would soon go out of ex-
istence in a civilized community. In-
stead of that, however, they soon
gather a crowd of similar perverse
spirits, when a mill is to come off, and
in defiance of all statute law, common
decency, and the precepts of humanity,
they proceed to mail each other, while
vast sums of money are staked on the
result by a class as destitute of hu-
manity as they are. And not only
this, but there are a lot of reporters
for daily papers present who will spec-
ify all the particulars of the combat,
how one lost an eye, another had his
nose smashed, one had his ribs broken,
the other his neck put out of joint,
and so on, with the disgusting particu-
lars from beginning to end. Then
there are moral—very moral—publish-
ers, who denounce all this brutality as
disgraceful to civilization, yet who pay
these reporters large sums for fur-
nishing all the items of such a row,
and try to vie with their neighbors in
being first to tell the world what was
done by these combatants. This is
one of the stimulants to these exhibi-
tions of devilishness, which if not
carried out would tend to discourage
their frequency. As first suggested,
we say, pen a pair of them up when
aching for a fight, let nobody see them,
bet on them, nobody report their
bestly performances to the newspa-
pers, and then soon would come an end
to such scenes as would disgrace any
of the more than half naked, worm
eaters of Africa, or the Cannibals of
the South Sea islands. Descriptions
of such combats are delectable les-
sons for refined, civilized, Christian-
ized people to read, yet they are read
by thousands, and the effect cannot
but be pernicious.

"CRUMBS SWEEP UP"

is the suggestive and somewhat pecu-
liar title of a very interesting and read-
able book, written by the Rev. De Witt
Talmage, of Brooklyn, New York, and
published by Evans, Stoddert & Co.,
740 Sansom Street, Philadelphia. The
author is well known by the public
generally as a popular lecturer and
preacher. Being a man of the times,
his sympathies are altogether with the
present, and his views herein expressed
show the fearless disregard of all old
conventionalisms, and hearty apprecia-
tion of the advance of the age. In
illustration of this, he is now engaged
with all his heart, in the "Free Church
Movement," having so labored as to
secure the co-operation of enough pe-
cuniary and working assistance to rear a
free tabernacle, capable of seating over
three thousand people; and this ac-
complished inside of two years, with a
congregation of less than one hundred,
in an old church, in the immediate
neighborhood of the great Henry Ward
Beecher. The articles treated in
"Crums" are illustrations of the
many and various sayings of the pres-
ent day, with pleasing sketches, all
showing their application to a moral.
They are written in a spicy and vigor-
ous vein, humorous and pathetic. His
articles written on his late trip to Eu-
rope are also included. He has evi-
dently viewed the sights with open
eyes, and has a peculiarly happy fac-
ulty of word drawing rarely surpassed;
his style is decidedly original, and his
many philosophic and amusing apho-
risms are wonderful. We add a few
extracts, as they better illustrate his
style. We recommend for it a perusal
by every one, and we predict for the
book a very large sale. It is printed
on tinted paper, elegantly bound in
morocco cloth, and is illustrated in a
manner at once pleasing and suggest-
ive, by an eminent artist. The price,
\$2.00, is within the reach of all, the
publishers, desire being evidently to
make it at once popular and cheap. As

it is published by subscription, it will
not be found at the bookstores, but
will be mailed to any address, free of
postage, on receipt of the price by the
publishers, by whom reliable canvass-
ers, male or female, are wanted to aid
in its sale. We advise any of our
readers, wanting employment, to ap-
ply for the agency.

We strongly suspect that a pair of
glasses on a minister's nose would be
worth to him about three hundred and
seventy-six dollars and forty-two cents
additional salary. Indeed, we have
known men who had kept their parish-
es quiet by this spectacular power. If
Deacon Jones criticized, or Mr. G. Go-
about gossiped, the dominie would get
them in range, shove his glasses from
the tip of his nose close up to his eye
brows, and then concentrate all the
majesty of his nature into a look that
consumed all opposition easier than the
burning glass of Archimedes de-
voured the roman ships. But nearly
all, young and old, near-sighted and
far-sighted, look through spectacles.
By reason of our prejudices, or educa-
tion, or temperament, things are apt to
come to us magnified, or lessened, or
distorted. We all see things different-
ly—not so much because our eyes are
different as because the medium
through which we look is different.

Some of us wear blue spectacles, and
consequently everything is blue. Tak-
ing our position at Trinity Church, and
looking down Wall street, everything
is gloomy and depressing in financials;
and looking up Broadway, everything
is horrible in the fashions of the day.
All is wrong in churches, wrong in ed-
ucation, wrong in society. An undig-
ested slice of corned-beef has covered
up all the bright prospects of the world.
A drop of vinegar has extinguished a
star. We understand all the variations
of a growl. What makes the sunshine
so dull, the foliage so gloomy, men so
heavy, and the world so dark? Blue
spectacles, my dear, blue spectacles!

Your neighbor's first great idea in
life is a dollar; the second is a dollar-
making in all two dollars. The smaller
ideas are cents. Friendship is with
him a mere question of loss and gain.
He will want your name on his note.
Every time he shakes hands, he esti-
mates the value of such greeting. He
is down on Fourth of July and Christ-
mas Days, because on them you spend
money instead of making it. He has
reduced everything in life to vulgar
fractions. He has been hunting all his
life for the cow that had the golden
calf. He has cut the Lord's Prayer on
the back of a three cent piece, his only
regret that he has spoiled the piece.
He has calculated how much the inter-
est would have been on the interest
of the widow's "two mites" if she had only
kept them till now. He thinks that
the celestial city with pavements
of gold is a great waste of bullion. No
steel or bone eye-glass would fit the
bridge of his nose. Through what
does he look? Gold spectacles, my
dear, gold spectacles!

A church is divided into two parties.
What one likes the other abhors. They
feel it their duty to stick to it. In the
devotional meeting they pray at each
other's inconsistencies, hoping that the
prayer will go to heaven by the way
of Deacon Rafferty's pew, just stop-
ping a moment to give him a shaking.
If one wants the church built on the
hill, the other wants it down by the
saw mill. If one wants the minister to
avoid politics, the other would like to
have him get up on the side of the pulpit
and give three cheers for John
Brown's knapsack, which is said to be
still "strapped on his back!" When
Elder Bangs sits still in prayer, Elder
Crunk stands up to show his contempt
for such behavior. If one puts ten cents
on the plate, the other throws a dol-
lar on the top of it, to show his abhor-
rence of such parsimony. The whole
church catches the quarrelsome spirit,
and begins to go down. One half the
choir eats the other half. The pew de-
vours the pulpit, and the pulpit swal-
lows the pew. The session take down
the trustees, and the trustees masticate
the session. The Sunday school and
sewing society show their teeth and
run out their claws, and get their backs
up and spit fire. And church councils
assemble to stop the quarrel and cry
"Scat! scat!" to the infamous howlers.
But the claws go on with their work,
till there stands the old church by the
wayside, windowless and forsaken! Nothing
more or less than a monument to the
memory of the dead ecclesiastical
cats of Kilkenny!

But if you should happen to have
under your charge, as guardian or par-
ent, a child not sharp enough to strike
a bargain, not ingenious enough to
make a sled, not loquacious enough to
start an argument, not inquisitive as
to the origin of things, always behind
in the school, and slow in the play-
ground—there is then only this alterna-
tive: If he be fat and clumsy, or un-
conquerable appetite and enormous
digestion withal, then send him to the
city, pull the wires, and make him an
alderman. But if he be long and lean,
sallow-checked, with nerves ever on
the twitch, and a digestion that will
not go, I know not what you will do
with him unless you make him a mi-
nister. Alas! for the absurdity rampant
among families, that when because of
physical incompetency, a man is fit for
nothing else, he is fit to be a "legate of

the skies." Religion will never make
up for lack of liver and backbone.—
From Crums Swept Up.

SAM LAWSON ON COURIN.

BY HARRIET BEECHER STOWE.

I'member I used to lead the singin'
in them days, and Miry she used to
sing counter, so we set putty near to-
gether in the singers' seats; and I
used to think Sunday mornin' when
she come to meetin' in her white dress
and her bonnet all tipped off with lay-
lock, that 'twas for all the world just
like a June sunrise to have her come
into the singers' seats. Them was the
days that I didn't improve my privi-
leges, boys," said Sam, sighing deep-
ly. "There was times that I'd a
spoke, there's no knowin' what might
a happened, 'cause you see boys, I was
better lookin' in them days than I be
now. Now you mind, boys, when you
grow up, if you get to waitin' on a
nice gal, and you're most a mind to
speak up to her, don't you go and put
it off, 'cause if you do, you may live to
repent it."

"Wal, you see from the time that
Bill Elderkin come and took the acad-
emy, I could see plain enough that it
was time for me to hang up my fiddle.
Bill he used to sit in the singers' seats,
too, and he would have it that he sung
tenor. He no more sung tenor than a
chunk blackbird, but he made 'bieve
he did, jest to get next to Miry in the
singers' seats, and then they used to be
writin' backward and forward to each
other till they tore out all the leaves of
the hymn-books, and the singin'-books
besides. Wal, I ever thought that
the house of the Lord was jest the
place to be courtin' in, and I used to
get considerable shocked at the way
things went on atween 'em. Why,
they'd be writin' all sermon time; and
I've seen him a lookin' at her all
through the long prayer in a way that
wa'n't right, prayin' they was both
professors of religion. But then the
fact was, old Black Hoss John was
to blame for it, 'cause he never let 'em
have a chance to home. Ye see Black
Hoss he was sot agin Elderkin 'cause
he was poor. You see his mother the
old Widjab Elderkin, she was jest
about the poorest, peaked old body
over to Sherburne, and went out to
days' works, and Bill Elderkin he was
all for books and larnin', and old Black
Hoss John he thought it was just shif-
tiness; but Miry thought he was a
genius, and she got it sot in her mind
that he was goin' to be President of the
United Stat, s or some sich.

Two Dollars a year, in advance.

Massillon, Wednesday, Oct. 26.

The prohibitionists, or temperance people of Ohio, had an independent state ticket this fall, and a considerable number of counties had, also, local tickets. Not the least of the signs of the times is this movement, for it shows that the feeling in this behalf is increasing, as the candidates received some 2800 votes in this state at the last election. There was a time, we well remember, when the antislavery vote of Ohio was very small—perhaps a few hundred would comprehend all—but when that sentiment culminated in the formation of the republican party, it overwhelmed all opposition, and now it rules the country. By little and little does the right, in any direction, make its way into public power; and all that is required, is, for its friends to be faithful to their convictions, and carry them out in all practical ways. Because the votes of a party are few it is no proof that the cause they indicate is a weak one—it may be all powerful morally, and if so will go on conquering and to conquer politically. There are now 20,000 Good Templars in Ohio, a large portion of whom are voters, and this is but one section of the temperance army, for there are the Sons of Temperance and other temperance orders, all of whom, sooner or later, will affiliate with no other than a party which is avowedly in favor of sobriety. Then there are thousands of others who are bound to the present parties by very slender ties, and who now can hardly be persuaded to vote the regular ticket, and if they knew that a candidate drinks are sure to scratch him. All these elements will soon have a common temperance shibboleth, and if the now ruling parties don't take heed they will be overran by a new combination in politics.

The election returns of this state indicate that the republican ticket was elected by a majority of nearly 17,000. This is a very different result from last year, the majority being considerably increased. And still more is it an indication of political improvement over the time when Governor Hayes was first elected—then his majority was a little more than three thousand. This is poor encouragement for the democracy, when the majority over them is nearly five times as much as it was three years ago. At this rate it will take them a long time to get ahead of the republicans. No wonder the crow is taken out of their roosters—it is as fatal on them as the chicken cholera.

At the recent annual meeting of the Grand Lodge of I. O. G. T. at Cleveland some radical changes were made in carrying out the work of the order. We have not yet seen the full proceedings, but learn that the attendance was full in fact too full to transact business promptly and with efficiency. Some 400 or 500 were present, representing about 20,000 of the membership in Ohio. The order was represented as in a more efficient condition than ever before, and is successfully progressing with the great work which it has undertaken. Judge Stewart, of Norwalk, was elected G. W. C. T. for the coming year. Bro. J. A. Spencer, of Cleveland, G. Secretary, Sister M. M. Brown, of Norwalk, G. Treasurer, and Bro. C. W. C. T. for the coming year. Bro. J. A. Spencer, of Cleveland, G. Secretary, Sister M. M. Brown, of Norwalk, G. Treasurer, and Bro. C. W. C. T. for the coming year.

C. T. for the coming year. Bro. J. A. Spencer, of Cleveland, G. Secretary, Sister M. M. Brown, of Norwalk, G. Treasurer, and Bro. C. W. C. T. for the coming year.

At the recent annual meeting of the Grand Lodge of I. O. G. T. at Cleveland some radical changes were made in carrying out the work of the order. We have not yet seen the full proceedings, but learn that the attendance was full in fact too full to transact business promptly and with efficiency. Some 400 or 500 were present, representing about 20,000 of the membership in Ohio. The order was represented as in a more efficient condition than ever before, and is successfully progressing with the great work which it has undertaken. Judge Stewart, of Norwalk, was elected G. W. C. T. for the coming year. Bro. J. A. Spencer, of Cleveland, G. Secretary, Sister M. M. Brown, of Norwalk, G. Treasurer, and Bro. C. W. C. T. for the coming year.

Gen. Cox, secretary of the interior, has resigned his place in the cabinet, and Mr. Delano is to take his position. Other changes are talked of, among the president's counselors, and may soon transpire, but when no one seems to know positively.

Mr. Schenck has been beaten by Campbell, in the third district, 53 votes. Mr. S. don't seek the place, but his friends are not disposed to let the master rest here. They are bound to contest the election, and will succeed, as there was no little rascality practiced. Among other things the democracy did was to refuse the votes of a large number of crippled soldiers, who are provided with a home at or near Dayton, and are justly entitled to a vote. Somebody will see trouble in this matter before all is over.

The president has issued a proclamation for national thanksgiving, to take place on the last Thursday of November, (the 24th.)

Mr. Penoyer exhibited at this office on yesterday an ear of corn 10 inches in length, containing eighteen rows, and 943 grains. If anybody can beat that he would like to know it.

The terrible gale of last week which strewed the coast of Florida with wrecks, did almost incredible damage in Cuba. Accounts have been received placing the loss of life at from one thousand to two thousand drowned or otherwise killed; twelve thousand head of cattle were lost, several vessels wrecked, and in Matanzas alone over four hundred houses were destroyed. One story, almost too extraordinary for belief, says that a cemetery was uprooted and swept away, the corpses being scattered over the adjoining country. We cannot but think there is some exaggeration in this, and hope that such is also the case with regard to the number of lives lost.—Cleveland Herald.

The census of Great Britain will be taken April, 1871. The method of procedure differs materially from that employed in the United States, and seems better calculated to secure accurate results. The police are the agents employed, and on the 3d of April they are to collect the particulars of all persons who reside in each house on Sunday, the second of April. The entire statistics of the three kingdoms are in this way to be collected in a single day, thus preventing duplication and lessening the risk of omission.—Cleveland Herald.

Diamonds of immense value, extraordinary gems, as we are told by the cable, continue to pour into Europe from Africa. The original African diamond, a very valuable article also, was tided toward the American continent.

Some of the Madrid papers are advocating the granting of liberal reforms to Cuba, and urging the government to seek glory in that direction, while there is so large a field at home for reforms why not attend to it; The Spanish government has enough to attend to in Spain, and the day is past for its interference in Cuban affairs.

The Diamond Glasses,
Manufactured by
J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the most Perfect Natural Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the eye or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability cannot be surpassed.

WELL'S

CARBOLIC TABLETS.

An unfailing remedy for all bronchial difficulties, coughs, colds, hoarseness, asthma, dyspepsia, dysuria, of the throat or wind pipe and all catarrhal diseases of the respiratory organs.

The wonderful modern discovery of carbolic acid, is destined to become one of the greatest blessings to mankind in its application to diseases of the human race, and its great curative principle in all affections of the throat, chest, lungs and stomach.

Dr. Well's Carbolic Tablets.

Besides the great remedial agent carbolic acid contain other ingredients universally recommended, which chemically combine, producing a tablet more highly medicinal and better adapted for diseases of the human race, than any preparation ever before offered to the public.

For Worms in Children

no more efficacious remedy can be found, in fact, these tablets are a specific and should be promptly given for this painful suffering of our little ones. In all cases where the kidneys do not perform their functions properly they are freed by the tablets, which healthy action will surely follow. They are invaluable of a preventive of all diseases of a contagious nature, and no family should be without them.

As a delicious tonic herbifid, and purgative, it cures all diseases of the kidneys and bladder, loss of appetite, dyspepsia, nervous debility, &c., it is unrivaled. To females it is especially recommended for all irregularities of the menses, and disorders peculiar to their system, as it can be used with perfect safety. In pulmonary diseases it is a great preventive of fever and ague. Charles S. Faul

LOCAL MATTERS.

The Massillon Literary Association is to meet at the mayor's on next Tuesday evening. Members, and all others who take an interest in intellectual improvement, are respectfully invited to be present. It is hoped that a sufficient number will feel like taking part in the proceedings of this association to make the meetings occasions of progress in the exercises which are there carried out. There are members, and others as well, who are anxious to make such efforts as are requisite to impart life and energy to these meetings; and there are enough young men here who ought to avail themselves of such facilities as these mental trials will elicit.

The exciting intelligence came to town on Monday afternoon that Joseph Neff, a farmer a few miles south of this place suddenly fell dead just after he had eaten his dinner. He lighted his pipe, and started from the house to his barn, where he fell dead without a moment's warning. So far as we can hear he was enjoying his usual health, when thus overtaken by the hand of death.

The largest stock of dress goods in the city at Humberger & Son's.

At Cost.—Now is the time to buy queensware, wall paper, curtains, &c., for we are selling them at cost. Williams & Reed, No. 2 Opera Block.

We are requested to announce that the Sabbath school meeting at the Disciples church will be held every Sunday, commencing at 2:30 o'clock.

Ricks' will sell you table linen for 37½ cents per yard.

About a year ago two men attempted and partly carried out a terrible piece of outwary by placing obstructions on the railroad near Lucas, in Richland county. Fortunately comparatively little damage was done, though part of the train was thrown off the track, and we believe one life was lost, while hundreds were endangered. The perpetrators were soon arrested and kept in prison at Mansfield. Last week they were brought to trial for the crime of which they were proven guilty, and sentenced to the state prison, one of them for ten years and the other for life. Their excuse for perpetrating this wicked act was, they were out of money, and hoped by this means to rob enough to make them rich—give them plenty. Honest labor would not have brought them to such an ignominious fate.

Stop and see the new goods at Humberger and Son's.

Balmoral and gored skirts very cheap at Ricks'.

Corsets, gloves, hosiery, pure thread and mattress collar at Estep's.

At the Northern Ohio Fair held at Cleveland the salt manufactured near New Lisbon took the first premium. They do make a very superior article there, and in considerable quantities. The flannels made at the same place are also in high repute, as we notice them for sale at different places.

Ricks' sell their stock of carpets at cost, go and see prices and assortment.

Lace embroidered, hemstitched and plain L C hicks at Estep's.

Mr. George Zieley is doing much to secure the favor of the traveling public by his successful management of the hotel over which he presides. His experience enables him to fill the responsible position he occupies to the satisfaction of his numerous guests.

Now is the time to buy your shawls Ricks' have just received another lot of very nice ones and will sell them at small profits go and see their assortment.

The Evangelical Lutheran (St. Pauls) and the German Catholic churches, we are informed are taking measures to have gas introduced into their buildings. This will prove advantageous to both, and be a decided improvement which all connected with them will appreciate.

Black silks at prices from \$1.25, per yard to \$5 also fancy colors in silks and poplins at Ricks' go and see the goods.

Following the earthquake we have had several pleasant days, though on Friday night there was a little rain accompanied by a brief, high wind, which made a sensation as long as it lasted. On the ocean and lakes hurricanes about the same time were fearful destructive, causing the loss of numerous vessels and many lives.

Silks, poplins, merinos, alpaca and other dress fabrics at Estep's.

Every lady who desires to purchase a dress of any stripe can find a large assortment at Ricks' to select from, satins, serges, rep, plaids &c., at low prices.

The WALLACE SISTERS and accompanying troupe entertained many of our people every night last week, in the Opera House, by presenting several of their choice pieces in a manner which gave satisfaction to all who witnessed the performances. In consequence of storm and rain on one or two evenings the attendance was not so full as it otherwise would have been, but the audience increased the longer the company remained, and notwithstanding the reputed hard times if they could have remained another week it does seem as if the number of people would increase every night. Although this company don't pretend to present any of what may be called heavy plays, yet they fill a place in the drama so well with peculiar selections that don't fail to attract and please. Their beautiful and rich wardrobes excel anything in that way that has visited this city. They are at Mansfield this week.

New Goods—Come and See.—Humberger & Son have just opened the nicest lot of dress goods, shawls, cloakings, waterproofs and fancy and staple dry goods generally. Come and look us through, you can not fail to be suited. A. J. Humberger, & Son.

The largest assortment of black alpaca and pure mohairs in the city at Ricks' at prices ranging from 4½ cents per yard and upwards.

Considerable interest was evinced on last Monday by a large number of our citizens in witnessing a trial of speed between two horses, one belonging to Michael Young, and the other to Wm. Foltz. The place of action was on the road between this city and Navarre, and the distance three miles. After an animated contest, the horses, Sole Leather Dick, Mr. Young's horse, reached the end of the race about two rods ahead. Fifty dollars was the stake and of course changed owners. Some of our horsemen, it is said, are talking of having a place prepared for the purpose of trying the mettle of their steeds. As there are many who take a deep interest in horseflesh it would not be surprising if the idea is put into practice.

For the largest assortment of prints and low priced muslins go to Ricks'.

German town wools, zephyrs and stocking yarn at Estep's.

THE EARTHQUAKE, which visited this place on last Thursday a little before noon, was the great sensation here for some time after its occurrence. A majority of us did not perceive its presence at the time, but there were many others, under peculiar circumstances, such as being in the second or third story of a building, where all was quiet, whether sensitive to such disturbances or not, witnessed its manifestations very distinctly. Some places seemed to be more violently moved than others, even in this neighborhood, but we have heard of nobody or building that suffered injury from it. From what is said of the phenomenon in the papers it extended over a large breadth of the country, reaching far west and eastward to Boston and further, and the more eastern places in Canada. How far southward it extended is not yet (to the 23d) stated. The direction of its movements is said to have been from the southwest to the northeast.

For boys wear—You can find the largest assortment at low prices, jeans, tweeds, and all wool cassimeres at Ricks. Good suitable styles at low prices.

Estep has an assortment of New Lisbon flannels, the best all wool goods in the market.

George P. Rowell & Co., of New York, the well known and enterprising advertising agents, have purchased the agency of John Hooper & Co. of the same city, an equally well known, reliable firm, and by the union of the two will have by far the largest and most flourishing advertising establishment in the country, and if it is as well managed in the future as in the past it cannot fail to become still more gigantic and successful. Messrs. Rowell & Co. publish the American Newspaper Directory, the most complete volume of the kind in this or any other country, and at their New York office they keep on file more than five thousand periodicals, which are always open to the free use of their patrons. Both the retiring partners of the late firm of J. Hooper & Co. are to remain with Geo. P. Rowell & Co. for some months, until their own business matters can be adjusted, after which Mr. Wayne contemplates going abroad, and Mr. John Hooper, who has been elected treasurer of the Colwells, Shaw & Willard manufacturing company of New York, will give his attention to the introduction of the patent lined lead pipe, an article of great merit, extensively manufactured and sold by that company.—Springfield Republican.

We did hope that before this time our large manufacturing establishments would be in operation, but thus far all seems quiet. They certainly will not be thus dormant long.

Dr. Banning's lectures instead of being listened to by a mere handful of our citizens should have been heard by crowded houses. He discusses the question of health in an able, common sense manner, and his instructions are worthy the attention of all.

The Canton District Sunday School Institute held its last session here, in the basement of the M. E. church, on Tuesday and Wednesday of last week. A fair attendance of superintendents and other officers of these schools were present and participated in the proceedings. The opening exercises were conducted by Rev. S. Baker, and the closing address delivered by Rev. E. Hingeley. Lewis Miller, of Akron, spoke of the model superintendent, who also discussed the question of practical Bible class teaching. Rev. J. M. Bray conducted the Sunday school experience meeting, and Rev. S. Baker discussed what is the best financial system for a Sunday school. An essay was read subject, the Sunday school teacher, by Miss Belle Conrad, of this place. Class drill by T. O. Chapman, and infant teaching by Mrs. A. Kitt and Mrs. F. P. Church. At the children's meeting, where all were invited to be present, addresses were delivered in ten minute speeches by Rev. J. M. Bray, Rev. W. Lynch and others. O. S. Bachtel took a prominent part in the exercises, and Mr. John Hunter, of Alliance, led the superintendents and teachers' meeting. At times Prof. O. Kane led the music department, and to him much credit is given for adding interest to the proceedings. The next meeting of this body will be held at Malvern, Carroll county, which is to take place on the third Tuesday of May next. Rev. E. Hingeley, of this place, was elected president for the coming term, and O. S. Bachtel, of Malvern, secretary. Members were so well pleased with the essay by Miss Conrad that it was voted to have it published in the Pittsburg Christian Advocate. This is but a meagre outline of the doings, as sessions were held which occupied two days. All who were present appear much pleased with what transpired.

A very large majority of us when we cease going to school are seldom seen in the schoolhouse afterward. When boys and girls come to be men and women, get married, and have children of their own to send to school, they nearly all seem to forget that it is a duty they owe to the success of the schools that they should occasionally visit them. This is not as it should be. Teachers and the officers of schools are anxious to receive visitors, even if they do not say a word, for their presence is evidence that they feel interested in the work of education. Suppose, then, that many of us turn over a new leaf, and make it our business to call in the schoolhouses occasionally and see how things are progressing.

On next Monday, the 31st of October, is the annual holiday of the German Reformation, being the day on which Luther nailed his 95 Theses to the door of the Castle church of Wittenberg, and thereby commenced the work of the glorious Reformation. On that day the Evangelical Lutheran church of this place, in commemoration of the above fact has German services in the morning at 10 o'clock and also English services in the evening at 7 o'clock, to which the public is heartily invited. P. I. BRENN, Pastor.

The congregation recently worshipping in the basement of Masonic Hall, has now a beautiful church of their own, and so far as we know the bell is not now in use. It is in a good location as to convenience, provided with comfortable seats, and large enough for a class of lecturers or musicians who are not able to afford a more expensive place. It has been suggested that this place—if no objections are made by the proprietors—be open for public use in the way above suggested, and if it is, our citizens will not fail to appreciate the arrangement, and that class of lecturers who are not prepared to use an expensive hall will be very likely to patronize this one. Then it will be a central place in which to hold citizen's meetings, when large numbers are not in attendance.

Dr. Banning's labors here are beginning to be appreciated better than they were at first. On last Monday evening he lectured to a goodly number of our citizens in the Presbyterian church, who listened to his philosophical and truthful reasoning on an important subject, (the human voice) with undivided attention, and we doubt not with profit. A number of the ministers were present, and it is certain they heard much that will prove of practical use to them. There is no mistake but that the doctor, who has had long experience as a lecturer, is proving himself extensively useful in matters pertaining to health.

It was the habit of the late Edwin P. Christy, the founder of minstrelsy, to drop into the St. Nicholas Hotel and have a social chat with the clerks in the office before going to his home, which was in the immediate vicinity. On one of these occasions, while Mr. Christy and the clerks were enjoying a cigar and canvassing the topics of the day, he remarked, "Gentlemen, I have made an offer for the lease of Niblo's Garden for the coming season, and if I am successful in obtaining it, I shall produce an idea in minstrelsy which is new, novel, and enjoyable. I have long been contemplating the plan and I am positive that it will prove to be much more popular than the present style of Ethiopian performances." Mr. Christy here gave a minute description on of his ideas. He failed to obtain the lease, and a short time after, in a fit of insanity, he jumped from his bed room window and was killed. Mr. Dobson, the manager of the Wallace Sisters Opera Bouffie, Burlesque and Comedy Troupe, now planning to overwhelming crowds in the popular opera houses in Ohio, was one of those clerks, and will next season, produce Mr. Christy's idea in gorgeous style, and place on the boards one of the most novel and original minstrel organizations in the world.

LIGHT GOES MORE! The Volcano Furnace goes into blast this week. This is good news to our community, as it will tend to give up things here. We hope the proprietors will be encouraged to keep the establishment in motion, and that they will do so we have proof in the enterprising spirit which they have heretofore manifested. The unfortunate strikes among the miners, we hope, will not again recur to derange a large portion of the business of this community, and work the most detrimental consequences to themselves. May we not hope soon to chronicle the commencement of work at the Massillon Furnace also?

Prof. Atrwater of the Alliance college will preach at the Disciples church at the usual hours next Sunday.

We are having beautiful auroral exhibitions almost every night, which are exciting the attention of all classes of people. Brilliant lights of various colors, rapidly changing shapes and position, equal in splendor anything heretofore witnessed. We thus have signs in the heavens, and the earthquakes, and the heavenly lights. What may be the result of these phenomena no one can foretell, though some prophecy terrible consequences. Time will disclose what they indicate, even if it is anything unusual.

The Holmes County Republican is the title of a new, large, handsomely printed and well conducted paper recently commenced at Millersburg. One of the proprietors was in town the other day, and informed us that the enterprise is progressing admirably—their patronage in the way of subscription, job work and advertising is very liberal and encouraging. The paper was started but a few weeks previous to the election, and no doubt exercised a due share of influence in reducing the democratic majority from 1,900 to 1,300. If things work this way Holmes county will come out right yet, for in a few years it may be politically revolutionized. Success to the new paper and its proprietors.

The paper mill of this place belonging to a company of our citizens, has just been sold to the Cleveland Paper Company for \$15,000. We have heard no further particulars as to what the purchasers propose doing with it, but suppose they will continue to manufacture paper.

TO PHYSICIANS.

New York, August 15th, 1868.

Allow me to call attention to my Preparation of Compound Extract Buchu. The component parts are Buchu, Long Leaf, Cubebs, Juniper Berries.

Mode of Preparation.—Buchu, in vacuo. Juniper berries, by distillation to form a fine glc. Cubebs extracted by displacement with spirits obtained from Juniper Berries, very little sugar is used and a small proportion of spirit. It is more palatable than any now in use.

Buchu as prepared by druggists, is of a dark color. It is a plant that emits its fragrance, the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a tincture, as made in pharmacopoea, nor is it a syrup, and therefore can be used in cases where fever or inflammation exists. In this, you have a knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of profound confidence, I am, very respectfully,

H. T. HELMBOLD,

Chemist and druggist of 19 years experience.

(From the largest Manufacturing Chemists in the world.)

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold; he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

HELMBOLD'S FLUID EXTRACT BUCHU.

For weakness arising from indigestion. The exhausted powers of nature which are accompanied by so many alarming symptoms among which will be found indigestion to exertion, loss of memory, wakefulness, horror of disease, or forebodings of evil; in fact, universal lassitude, prostration, and inability to enter into the enjoyment of society.

THE CONSTITUTION

once affected with organic weakness, requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Buchu invariably does. If no treatment is submitted to, consumption or insanity ensues.

Helmbold's Fluid Extract Buchu

in affections peculiar to females, is unequalled by any other preparation, as in chlorosis, or retention, painful, or suppression of customary evacuations, ulcerated or Scirrhus state of the uterus, and all complaints incidental to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu

AND

IMPROVED ROSE WASH

will radiantly exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely remedying those unpleasant and dangerous remedies copaiva and mercury, in all these diseases.

HELMBOLD'S FLUID EXTRACT BUCHU

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter how long standing. It is pleasant in taste and odor, immediate in action, and more strengthening than any of the preparations of bark or iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to effect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. Helmbold's Extract Buchu is the great Diuretic.

Sold by druggists everywhere. Price \$1.25 per bottle, or 6 bottles for \$6.50. Delivered to any address. Describe symptoms in all communications. Address,

Troubles spring from idleness, and greivous toils from needless ease.

The philosophic Billings avers: 'It is a statistical fact that the wicked work harder to reach hell than the righteous do to get to heaven.'

In a public office in a western city the following notice may be seen:—Lost.—A valuable new silk umbrella, belonging to a gentleman with a curiously carved head.

Be slow to choose a friend, and slower to change him; be courteous to all.

The approved stimulant for those who are habitually behind time—Ketch up.

It is not a very good definition of a coffin to call it the house that a man lives in when he's dead.

Near a school house in Brooklyn is displayed a handsomely painted sign with the word Boarding upon it.

Men are never so likely to settle question rightly as when they discuss it freely.

I won't pay for steaks as tough as these, said an angry boarder; no law can compel me to—they're not legal tender.

One reprimanding another, said he 'talked like a fool.' 'True,' he replied, 'but it is that you may understand me.'

Do good and throw it into the sea; if the fishes don't know it God will.

A Minnesota paper says that during a recent thunder storm the lightning struck the ground near Red Wing, boring a hole about eight inches in diameter, and so deep that a twenty foot pole failed to touch the bottom. Such storms would be invaluable in the oil regions.

A western merchant is down on the newspapers. He says: 'There ain't no sense in no newspaper advertising so long as a man is smart enough to tend to his own bizniz and kin stand at the door and holler the fellows in.'

A California woman took a big rat tlesnake out of her baby's cradle and dropped him into a kettle of boiling water, which took the bite out of him.

The 'city' of New Chicago, Kansas, is only fifteen weeks old, and has two hundred houses and two newspapers.

A foreigner, who had heard of the Yankee propensity for bragging, thought that he would test the natives at their own game. Seeing some very large watermelons on a market woman's stand, he exclaimed: 'What! don't you raise larger apples than these in America? The quick witted woman immediately replied: 'Apples! Anybody might know you are a foreigner. Them's gooseberries!'

A negro on trial in Philadelphia for stealing put in the plea of insanity. To prove this, it was said he might have stolen the big rooster, but he only took the small chickens.

Ye men of gloom and austerity, who paint the face of Infinite benevolence with an eternal frown, read in the Everlasting Book, wide open to your view, the lessons it would teach. Its pictures are not in black and sombre hues, but bright and glowing tints; its music, save when ye drown it—is not in sighs and groans, but songs and cheerful sounds. Listen to the million voices in the summer air, and find one as divine as your own. Remember, if ye can, the sense of hope and pleasure which every glad return of day awakens in the breath of all your kind who have not changed their nature; and learn some wisdom even from the witless, when their hearts are lifted up, they know not how, by all the mirth and happiness it brings.—Dickens.

Home is the one place in all this world where hearts are sure of each other. It is the place of confidence. It is the place where we tear off the mask of guarded superstitions, coldness which the world forces us to wear in self defense, and where we pour out the unreserved communications of a full and confiding heart. It is the spot where expressions of tenderness are given without any sensations of awkwardness, and without any dread of ridicule. Let a man travel where he will, home is the place to which his heart, untraveled, fondly turns. He is to double all pleasure there. He is to divide all pain. A happy home is the single spot of rest which a man has upon this earth for the cultivation of his noblest sensibilities.

The Independent,

Massillon, Ohio.

Is now Seven Years Old, and "Still Lives."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for justice in all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

Manhood: How Lost, How Restored.

Just published, a new edition of Dr. Culverwell's Celebrated Essay on the radical cure (without medicine) of Seminal Discharge, or Seminal weakness, and physical losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy and fits, induced by self indulgence or sexual extravagance.

Price, in a sealed envelope only 6 cents.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice, that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife, pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land. Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C. KLINE & CO., 127 Bowery street, New York. P. O. Box 3, 358.

Dr. J. LONG.

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office on Main street, four doors east of the American Hotel.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he cannot be decided, if he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system, generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourself whether he understands your case sufficiently well to treat them successfully.

Dr. Long may be consulted in the German and English languages. Address letters, JAMES LONG, M. D. 371-ly Massillon, Ohio.
